1-16-79

Hal...So the long FOIA process begins...By the by, San Francisco FBI spokesman told me he knew Crewdsen and that if he said he has a memo, he has it. He indicated that such however would have gotten to him only via Washington FBI. He also said that one other investigative reporter is aware of the memo in the bay area and while not revealing his name, did say that he would pass my name and number along...

Best to you and Lil...
